Time Budget instructions: You have 24hrs each day. The objective for your time budget is to assign an activity to each hour throughout each day. Refer to this game plan each day as you search for your next job. Don't hold back either. Remember the Lifestyle First Framework we covered in Module 2. Your life OUTSIDE of your job search is just as important as your search, if not more.
If you forget to set aside time for yourself and what you are passionate about, your job search will hold you in a slump. Life is too short to be miserable in this season of life
Your job search doesn't need to be miserable, so mix it up and plan your day around what makes you feel a sense of accomplishment and joy.
Start with Fixed Times then work down the rows until you get to the time you need for researching and applying for jobs. l'd suggest at least 4 hours here.
